National Terrorism Advisory System Current Alerts

SITUATION SUMMARY

Cathedral City, Residential Burn (Final)

Current:

- Sixty-eight impacted residents were evacuated at 1500 hours, 06/27/14. As of 1000 hours, 06/28/14, the mobile home park was cleared for repopulation.
- Per the Cal OES SDO, Local Disaster Proclamation from Cathedral City via Riverside County remains forthcoming.

Situation:

- The Cathedral City Fire Department, along with Federal and State Fire agencies, began burning down a residence in Cathedral City, 06/27/14; the residence was determined to contain bomb making materials.
- As of 0030 hours, 06/28/14- Cathedral City Fire Department, along with Federal and State Fire Agencies conducted a successful firing operation, which consumed the mobile home that contain bomb making chemicals.
- The residence was located in the Cathedral City Sungate Mobile Home Park (previously reported as Desert Gates Estates).

Emergency Operation Center Activations:

- Today, 6/29/14, San Francisco OA EOC will be activated 0900-1800 hours (partial activation with first responder elements) to monitor the Pride Parade. Other staff will be available if needed, including Cal OES Coastal Region. The Pride Parade route will go down Market, from Beale to 8th. The Civic Center Pride Celebration will continue to the late afternoon.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

SITUATION SUMMARY

Significant Weather

- Building high pressure over the western U.S will bring hot temperatures through mid week. Daytime high temperatures are expected to climb to over 100 at the lower elevations each day. Overnight lows will be warm but not excessive. A slight cooling trend will begin around mid week.
- With summers arrival, though the state remains in the Phase I Alert condition of Seasonal Readiness, as outlined in the State Contingency Plan for Excessive Heat Emergency, State Agencies/Departments are advised to review existing plans, procedures and resources, to facilitate preparedness for and response to possible excessive heat events, and closely monitor the situation and inform Cal OES of any heat related issues or concerns.
- The California State Warning Center continues to monitor the weather statewide for heat or fire weather of concern and state power grid issues, and Cal OES Regions will remain in contact with Operational Areas (Counties) to monitor heat events which may impact local communities, facilities or agencies.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Building high pressure will result in warmer and drier weather through Sunday. The ridge of high pressure will strengthen on Monday resulting in hot temperatures inland early next week. A slight threat of thunderstorms exists early next week as weak disturbances pass over northern California.

San Francisco Weather:

Warm high pressure today through Monday will bring warm to hot weather to the bay area under sunny skies. Some minor cooling near the coast by Tuesday and Wednesday is expected but temperatures still running above normal inland. Seasonable weather Thursday but then trending warm to hot once again through the holiday weekend.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Dry weather for the next week is expected except a slight chance of thunderstorms over the northern mountains and in the Sierra south of Lake Tahoe Tuesday and Wednesday. Quick warm-up with hot temperatures is forecasted early next week. A very slow cooling trend mid to end of next week.

Hanford Weather:

High pressure over the region will bring above normal temperatures and mainly clear skies through the next week.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will bring above normal temperatures to inland areas through the upcoming week with near or slightly above normal temperature in coastal area. Night through morning low clouds and fog will continue to affect the coastal plain and some valley locations for the next seven days.

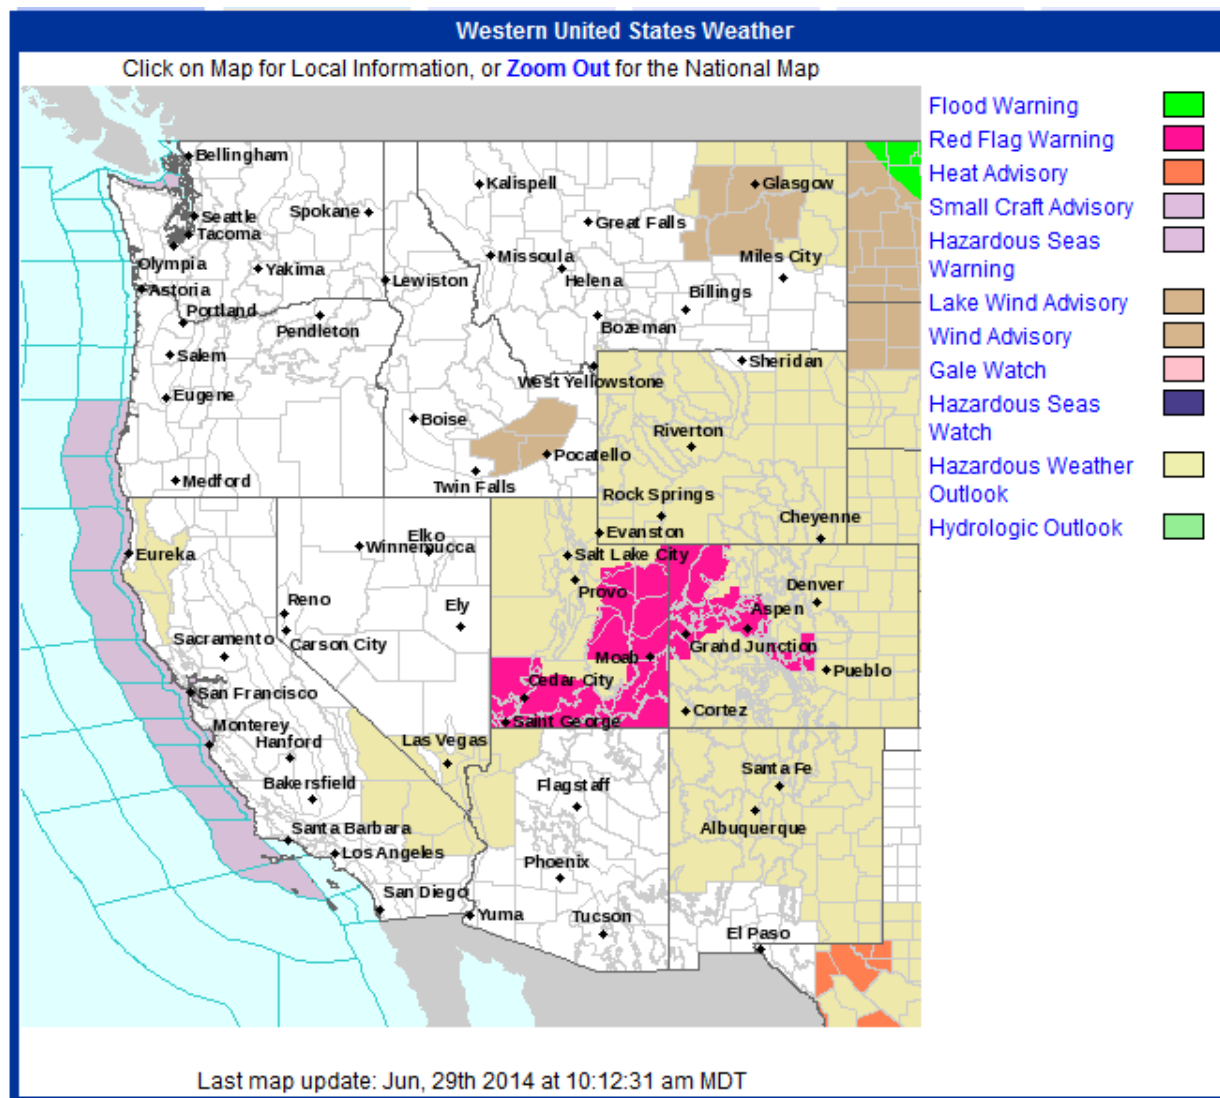

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft and weak onshore flow will continue seasonal weather. A weak coastal eddy will maintain a marine layer depth into Tuesday sufficient for night and morning low clouds and fog to extend into lower portions of the inland valleys. For the latter half of the week into next weekend high pressure aloft over the southwestern states will strengthen pushing inland high temperatures a little above average. The marine layer will shrink in the depth with night and morning low clouds and fog extending into the far western valleys.

Southeast California Weather:

A warming trend will occur through the middle of the week under a strong ridge of high pressure with the hottest weather of the year so far expected Tuesday and Wednesday. There will be a slight chance of thunderstorms near the southern sierra Tuesday.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

On April 25, 2014 Governor Brown released an Executive Order on Friday enabling several urgent actions to be taken as the drought persists into the state's traditional dry season.

** As this rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly over the coming months. This winter's below average rain and snowfall worsens conditions in this third straight dry year.**

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

U.S. Drought Monitor

CAL OES MISSIONS

On-Going Cal OES Missions

2014-LAW-3961, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. The Cal OES Law Duty Officer is coordinating resources.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
